

LTL & EXPRESS DELIVERY

For 30 years, the Swiss group of companies Asstra-Associated Traffic AG has been providing clients with a full range of services in organizing international transportation by all modes of transport.

LTL & Express Delivery is a perfect decision for companies unhappy with classic groupage solutions or companies that don't require large, regular shipments but still need fast, reliable delivery. Our LTL & Express service adapts to your business needs, delivering when and where you need it most.

DIFFERENCES

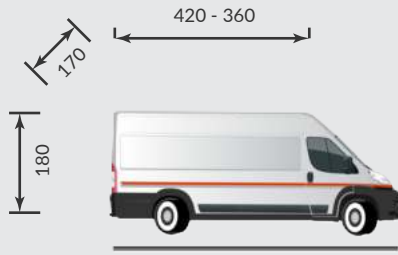

Standard groupage has a price advantage but our LTL service is more precise, we can improve your KPI, manage difficult Slots or other requirements.

Groupage needs a certain pre announcement, always has different transit times and reloading, hard to locate your goods or influence the process.

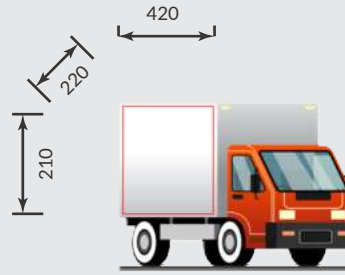

Our direct delivery approach is carried out with various vehicle types, with the focus on larger part loads in FTL or urgent goods with solo vehicles.

SOLO VEHICLE SIZES
